Anna Porwit

Jerzy Stanek

Discover Kraków

Kraków is the former capital of Poland and one of its most important academic and tourist hubs. Its historic center and Wawel Hill were the first Polish sites inscribed on the UNESCO World Heritage List (1978).

Join us in a city of culture, science, and centuries-old tradition.

About the Course

The IHC Academy has been held in Kraków since 2014, gathering nearly 900 participants across nine editions. This internationally recognized course focuses on the practical application of immunohistochemistry and molecular pathology in diagnostics.

Upcoming Edition

Full program available on the website

Registration opens in early 2026

Certification for Participants & CME Credits for Pathologists and Residents
